FULL I-95 CLOSURE for I-95/SR 896 Interchange Bridge Girder Installation

Newark – The Delaware Department of Transportation (DelDOT) announces the third stage of bridge girder installation for the new southbound I-95 to southbound SR 896 flyover ramp is anticipated to start on February 13, 2024 (weather permitting).

This stage requires overnight FULL CLOSURE of northbound and southbound I-95 and southbound I-95 off ramp to southbound SR 896 over 4 nights - tentatively scheduled for February 13, February 14, February 15 and February 19. The detour is shown below:

In order to avoid delays on the detour routes through Newark, southbound I-95 motorists are encouraged to use SR 1 to US 40 to access southbound SR 896 and SR 279 to SR 4 to continue to the southbound I-95 detour.

Detailed information regarding the timing of the lane and ramp closures will be issued once the dates are confirmed.

The public is encouraged to visit the project website 95896improvements.com to sign up for text/email alerts regarding construction-related closures.
